# DJ Tijeras: A Revolutionary Turntablist & Remixer

We Shred The Scene with DJ Tijeras

Thursday, September 1st, 2011 at 1:43 pm | [Natalie Lopez](#)

We all go to clubs, bars, and lounges for one major reason: to dance the night away! And of course to have

Editor In Chief

the occasional best cocktail of your life!

If you've been searching for an original turntable DJ, look no further than DJ Tijeras. If you've been wondering, "Does anyone mix live sets anymore? Does anyone use vinyls anymore?" Well, we have the answer. Yes!

Eddie Casanova a.k.a DJ Tijeras, was raised in the legendary NYC neighborhood, Hell's Kitchen. Recognized for his diverse music selection and immaculate mixing technique, his mixes range from house/dance, pop, rock, hip/hop, rap, R&B, salsa and merengue, you name it --he does it all! DJ Tijeras has consistently entertained party audiences of New York City and beyond for over a decade.

I had the honor of meeting and partying at one of his events and had a blast. The club was packed and not a soul was standing still, DJ Tijeras truly mastered the feel of his crowd. His club dance mixes are *that* irrisistable and you *have* to dance. During our chat he stated, "I couple the traditional elements of "turntablism" and the most modern DJ mixing technology to create unique sets. There's a feeling behind it that everyone can feel." DJ Tijeras is known for his added zest to today's hottest hits plus his personal favorites which is a bonus. Some spots you may have heard his mixes are *Copacabana, Latin Quarters, Bar 13, Taj, and China Club*. Lately, he is the headlining DJ at Bar 13. When he isn't spinning in the clubs, he's in his studio creating his crowd-pleasing remixes.

Having his musically talented side fulfilled, DJ Tijeras still finds time to manage his music entertainment company, Social Sounds, LLC. Go to [www.socialsounds.com](http://www.socialsounds.com) for more information. You can also find a list of his upcoming events and mixes at [Djtijeras.com](http://Djtijeras.com). Stop by Bar 13 this Saturday to hear a live mixed set! Stay tuned!
